PROFESSIONAL SUMMARY

I'm a passionate Frontend Developer, UI/UX Designer and Engineering Technologist who loves creating designs never before seen, outta the books, animations never invented or not too common, simple yet classic. I build responsive, user-friendly and high-performance web applications with modern technologies. Skilled in **React**, **Next.js**, **TypeScript**, **Tailwind CSS** and modern tools to deliver digital experiences that are not just functional but unforgettable. I transform ideas into clean, scalable solutions and constantly push the boundaries of creativity and innovation.

WORK EXPERIENCE

Self-Employed – Freelance Developer

2023 – Present

- Design and develop responsive websites, web applications and dashboards for clients across various industries.
- Build e-commerce, real estate, portfolio and business websites using **React**, **Next.js**, **TypeScript**, **Tailwind CSS** and **Vite**.
- Integrate APIs, payment gateways, and authentication systems.
- Collaborate with clients to understand requirements and deliver high-quality, user-focused solutions.

Aviation Maintenance Administrator | Overland Airways | Nigeria

2022 – 2023

- Managed and organized aircraft maintenance records and documentation.
- Coordinated with engineers and ground staff to ensure compliance with safety and regulatory standards.
- Handled office administration tasks and reporting for the maintenance department.

Cashier | Fee Paying Pharmacy, Igando General Hospital

2021 – 2022

- Handled customer transactions accurately and efficiently.
- Managed daily sales records and ensured a balanced cash register.
- Provided excellent customer service and supported store operations.

Graphic Designer (Freelance)

2016 – 2021

- Designed flyers, logos, banners, posters and promotional materials.
- Created engaging visual content for businesses, events and social media.
- Worked with clients to bring creative ideas to life and strengthen brand identity.
